

Required Text: Arnheim, Daniel D. and Prentice, William E. Principles of Athletic Training, Mosby Year Book 10th ed.

#### COURSE DESCRIPTION:

This course teaches the principles, techniques, and ethics used by the athletic trainer in the care and prevention of athletic injuries. The scope of this class includes identification of common athletic injuries, their causes and preventative measures, first aid treatment, and associated follow-up care.

#### COURSE OBJECTIVES:

This course is designed to provide the future coach, physical educator, and athletic trainer with the basic theoretical knowledge and technical skills necessary for the proper and effective management of common sports related injuries. Specific objectives include development of the student's:

Appreciation of the legal and moral responsibility to provide proper health care services for injured athletes.

Understanding of the proper role of the coach, physical educator, and athletic trainer in the prevention, initial management, and rehabilitation of sports related injuries.

Understanding of the proper role of the coach, physical educator, and athletic trainer in the prevention, initial management, and rehabilitation of sports related injuries.

Ability to recognize the characteristic "signs and symptoms" of common sports related injuries.

Ability to apply protective taping, bandaging, and special padding for common sports related injuries.

#### ATTENDANCE POLICY:

Attendance is required and roll will be taken each day. Any excused absence requires an authorized note and is subject to validation by the instructor. It is the responsibility of the student to notify the instructor of circumstances which will prevent attendance at any meeting of the class. Students may notify instructors by e-mail or by phone using the number listed on the course syllabus. Each student will receive active class participation points. An absence will result in a loss of those points. Each tardy will result in a reduction of active class participation points. It is the student's responsibility to get the notes, handouts, and any announcements after an absence. Instructor reserves the right to exclude or fail any student when absences in hours exceed the number of hours the class meets per week. Not attending the final exam will result in a deduction of your grade by one letter.

#### COURSE REQUIREMENTS:

A quiz will be given at the beginning of each class. If you are late to class or absent, you will NOT be given the quiz. A final written comprehensive examination will also be given. Cheating on exams will not be tolerated. You will be warned and then subject to being dropped from the class. In addition to the written examinations, assignments and labs will be assigned. The student will be required to successfully perform introductory skills. CELL PHONES must be TURNED OFF (not on vibrate) during class. The instructor reserves the right to excuse any student from the remainder of a class for engaging in cell phone activity.

#### STUDENT LEARNING OUTCOMES:

Recognize, evaluate, and assess sport-related injuries through a series of special test.

Provide immediate care and establish treatment, rehabilitation, and reconditioning programs for sport-related injuries, as well as plan a proper nutritional and training guideline for sport-related injury prevention.

Advance to a four-year institution's athletic training program.
